

# POTTING UP SOIL RECIPE

USING AN 18 GALLON CONTAINER

## 1. SOIL BASE

- Peat Moss
- Compost

\*the measurement is a 3:1 ratio

## 2. SOIL POTION

- 2 TBSP Glacial Rock
- 1/4 Cup Alfalfa/Kelpmeal
- 1/4 Cup Bonemeal
- 1/2 Cup 'All Purpose' 4-4-4

## INSTRUCTIONS

Mix together all of the ingredients! Make sure that you add water to your mixture, you want there to be enough water that you can squeeze it together but no water comes out

## LIQUID FERTILIZER

3 GALLON WATERING CAN

- 1/4 Cup Fish Emulsion
- 1 TBSP Blackstrap Molasses
- 1/2 TBSP Epsom Salt
- Water

## FINAL STEP!

Pour the liquid fertilizer over your freshly potted plants, make sure that all of your plants have been equally fertilized!  
Now enjoy your happy and healthy plants!
